4PR907 User Manual

Turning On/Off Headset

1. To turn on the Headset

Press down on the P2 button for 2 or 3 seconds till the B-LED flashes (You may hearing two high tones from loudspeaker), then release. It indicates the standby mode by linking B-LTD.

2. To turn off the Headset

Press down on the P2 button for 2 seconds till the R-LED flashes. afterwards both R&B-LED are off (You may bearing two low tones from loudspeaker). now it goes to power off mode. The red indicator of Headset will flash slowly when battery low

Paring Headset

You are required to pair the Headset with your mobile phone or other devices before using it.

Step 1: Ensure the headset is off, then press down the P2 button till the pairing mode (both B&R-LED are flashing alternatively), then release, it takes about 6 seconds.

Step 2: Initiate pairing process of your mobile phone. Refer to the manual of mobile phone for detail process. You will see a new item "4PR 907" added in your Bluetooth device list after searching process.

FCC Information

This device complies with Part 15 of the FCC rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation.

Federal Communications Commission (FCC) Statement

This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

Tested to comply with FCC standard. FOR HOME OR OFFICE USE.

Warning :

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. & This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
